PROFESSIONAL SUMMARY

As a dedicated and detail-oriented BCA 3rd-year student with a passion for mobile app development, I bring a strong foundation in computer science and a proficiency in Flutter, the cross-platform framework. With hands-on experience in designing and implementing user-friendly, feature-rich applications, I excel in creating robust and scalable solutions

WORK EXPERIENCE

Flutter Developer | Tatvam Technology

January-2023 – December-2023

Collaborated with cross-functional teams to develop and maintain mobile applications using the Flutter framework. Designed and implemented user interfaces that adhere to design guidelines and provide an intuitive user experience. Developed and maintained application features, ensuring high performance and responsiveness across various devices. Integrated RESTful APIs and third-party services to fetch and display data dynamically within the mobile application.

SKILLS

Flutter: Proficient in Flutter for cross-platform mobile app development.

Dart: Strong understanding of Dart programming language.

Express.js: Experience in building robust and scalable web applications using the Express.js framework.

RESTful APIs: Experience in integrating RESTful APIs for seamless data communication

Mobile App Development (Flutter): Developed cross-platform mobile applications using the Flutter framework. Implemented intuitive and visually appealing user interfaces for seamless user experiences. Integrated RESTful APIs and third-party services for data retrieval and storage

Version Control: Proficient in using version control systems, particularly Git, for code collaboration and tracking changes.

TOOLS

Visual Studio Code (IDEs/ Text Editor)

Git / GitHub (Version Control System)

Flutter SDK

Dart Programming Language

Emulators and Simulators

Slack / Discord (collaboration)

LANGUAGES PROFICIENCY

English (Professional working proficiency)

Gujarati (Full professional proficiency)

ACADEMIC BACKGROUND

BCA
Sutex Bank Collage Of Computer Application And Science

2021 – 2024

PROJECTS

1. **Todo REST Api With graphql**

Designed and developed a GraphQL schema for efficient querying and mutation operations in Type script. Implemented CRUD (Create, Read, Update, Delete) functionality for Todo items using GraphQL resolvers. Integrated authentication and authorization mechanisms to secure API endpoints. Utilized a database system (e.g., MongoDB, MySQL) for persistent storage of Todo items.

2. **Coffee Shop Management App**

Designed and implemented a user-friendly interface for coffee shop staff to manage orders, inventory, and customer information. Integrated Firebase for real-time data synchronization, allowing seamless updates across multiple devices. Implemented user authentication and authorization features for secure access to different app functionalities.
